

THINK BIG

With around 4000 students living in Residence, our collective actions can make a big difference regionally, and inspire a generation of young leaders to continue making eco-friendly choices in their future lives.

The MCRC Sustainability Office is dedicated to facilitating the greening of residences and its residents. Our **Green Team** offers a variety of opportunities to get involved:

Recycling team – Educate, help and encourage students to reuse and recycle

Composting team – promoting the use of vermicomposters in residence, and possibly helping to maintain them

Anti-Food-Wastage team – raise awareness and reduce cafeteria food wastage

Cleanup team – conduct weekly cleanups of campus and act as role models for other students

On-call volunteer team – be able to volunteer when needed: the perfect opportunity for those too busy

MCRC Sustainability Office Intern(s) – help the Sustainability Coordinator plan and implement initiatives

Interested? Email **Yan Yu** at sc@mrcrcweb.org.

We are always looking for new volunteers!

And do you want a **personal vermicomposter** to compost your own organics in residence?

Again, get in touch with Yan. ☺
